

# TAKE CONTROL BEFORE YOU BUILD

## KNOW THE SOIL YOU BUILD ON

KNOW YOUR SOIL

KNOW YOUR FOUNDATIONS

KNOW YOUR COST

## WHY DO I NEED A GEOTECHNICAL REPORT?

An Ideal geotechnical report will provide a detailed soil analysis outlining the soil conditions and soil profiles of your site. The report provides all the relevant information required for your engineer to design the foundations for your house.

The ideal geotechnical report is an affordable way to get peace of mind before you appoint a builder or start your design and architectural process.

## FOR PEACE OF MIND GET AN IDEAL GEOTECH REPORT

- 5 day turnaround for metro areas
- Fleet of geotechnical rigs in NSW & QLD
- Specialised drilling equipment
- Trained field technicians
- NATA - accredited laboratory

Range of tests

Cost effective

Fast turnaround

## DO YOU KNOW THE HIDDEN COSTS IN YOUR SOIL?

### A GEOTECHNICAL REPORT IDENTIFIES:

SOIL PROFILES

SOIL CAPACITY

MOISTURE

SOIL REACTIVITY

FILL DEPTH

SOFT, COLLAPSING SOILS

WATER TABLE

ROCK FLOATERS /BOULDERS

ROCK DENSITY
